Role Overview:

As an ISO 27001 Consultant, you will work with external clients to design, implement, and support Information Security Management Systems (ISMS) in line with ISO 27001:2022 and other cybersecurity frameworks (e.g., NIST). You will be part of a dynamic consulting team delivering high-impact solutions across diverse industries in Ireland.

Key Responsibilities:

- Develop and implement customised ISMS aligned with ISO 27001 and NIST CSF.
 - Conduct gap analyses, internal audits, and security assessments.
 - Define security controls, incident response plans, and risk treatment plans.
 - Manage projects end-to-end, ensuring alignment with client needs and certification goals.
 - Collaborate closely with CGBC colleagues and support clients throughout their ISO certification journey.
 - Deliver training, awareness sessions, and ongoing compliance support.
 - Stay current on cybersecurity trends, standards, and regulatory changes.
-

Requirements:

- Minimum of 5 years' experience in information security, consulting, or digital transformation.
- Strong working knowledge of ISO 27001:2022, and related standards.
- Experience in implementing and auditing management systems.
- Professional certifications such as CISSP, CISA, CISM, ISO 27001 Lead Implementer/Auditor are highly desirable.
- Strong communication, client management, and presentation skills.
- Ability to work independently and across multidisciplinary teams.

What We Offer:

- Competitive salary and benefits
- Private healthcare and pension package
- Ongoing in-house training and CPD opportunities
- Supportive, collaborative work culture
- Access to cutting-edge tools and technologies
